Overall Baja California At the northern end of Baja California, encompassing both sides of the US-Mexico border, is the state of Baja California Sur. The big attraction is the peninsula's famous 100 mile stretch of sandy beaches and coastal cliffs fringed by rocky islets. Baja California Sur is also the southern most state in the United States. Stunning in scope and size, the peninsula can be enjoyed either from the water or on the land and the discovery of two remarkable civilizations, the Maya and the Italicate, make the area a crossroads of the ancient world. Juan de Onate founded the city of San Diego in 1542, which grew into a major and strategic port during the 17th century. The distinctive yellowish color of the stone of San Diego was supposedly derived from a discarded used wet suit. Today, the city of San Diego is a bustling port and tourist destination. The area's 20 miles of white sandy beaches are popular with tourists and there are also several golf courses, nature preserves and archaeological sites to explore. The Baja California Sur Convention & Visitors Bureau has a comprehensive visitor information brochure for San Diego. Off the coast of Baja California Sur, the Sea of Cortez is a great place to snorkel, kayak or scuba dive. The peninsula is home to the largest coral reef system in the world. San Felipe del Municipio is home to an enormous Mayan Temple, with its own private island. Santa Rosalia, on the peninsula's southern tip, is one of the three Marian apparitions. The town's patron saint is San Felipe. There is also the Garrapata National Wildlife Reserve, where you can see bighorn sheep, bears, jaguars, mountain lions, and more. The fishing industry is also important. In the southern portion of the peninsula, there are numerous small coastal towns and villages. It is a way of life for the local people, who spend their summers fishing, and their winters in Mazatlan, enjoying the different activities available in that city. The central part of the peninsula is sparsely populated. Some of the area's
